**Name:** Graham Mace

**Your Submission to the TPC Review:** I am writing to express my serious concerns regarding proposed changes to the states planning laws. As an elderly private citizen of this beautiful and special place, I have observed over the years a general and alarming trend towards governments supporting and promoting various proposals that have not been in the overall interest of the state and it's people. Sadly, some of these proposals were based on political ideology and obviously influenced by political donations to the major political parties. Glaring examples of these such proposals would include Gunns Pulp Mill and the Ralphs Bay marina . Thankfully our INDEPENDENT planning commission played it's pivotal and proper public role in advising against both these entirely inappropriate proposals. Sidelining or abolishing the TPC would be a dent to our democracy and give a green light to developers with political backing and influence to further their own financial goals to the detriment of both the environmental and social integrity of this potentially magnificent state. Sincerely, Graham Mace.
