**Subject:** Workplaces Bill

To whom it may concern,

My name is Amelia Cromb, and I am a woman in her late 20's. I am writing to you to express my strong, unwavering opposition to the Workplaces (Protection from protestors) Amendment Bill 2021.

We are amidst an incredibly unstable time, societally and environmentally. The natural world around us is collapsing and social well being is neglected, as economic growth and profiteering are continually prioritised. My future, and the future of the children and grandchildren I hope to one day have, depend on stable social and environmental systems (at a bare minimum) for a healthy, inhabitable world to be possible. At the moment, they are not only unstable, but degrading at an unfathomable pace.

I believe, as an overwhelmingly concerned citizen like so many others, that this is unacceptable. I refuse to stand by as our governing, decision-making bodies do nothing, or choose to not act on our behalf. If we live in a democratic society, there should be the ability to stand and speak up for the sake of our own futures, in a meaningful way in which we are both seen and acknowledged, without being heavily penalised, or imprisoned, by doing so.

Protestors are just people tirelessly working to divert our world from climate and ecological breakdown, doing the work our Government should be doing. Instead of harshening the laws around these individuals who are simply trying to make a positive difference, I would love to see government subsidised industries who are profiting from destruction completely revolutionised. To favour life, vitality, and a promising outlook for all of us. Not death, destruction, and despair over what awaits.

I strongly believe this new bill is unnecessary. If our leaders did their job in the first place, we wouldn't be in a situation of even needing to address such legislation.

Thank-you for reading, and I hope you take my submission on board.

Regards,  
Amelia Cromb
