Your Submission to the TPC Review: To whom it may concern, I am deeply concerned that planning matters may become much less transparent, that individuals and communities will not have an opportunity to input into planning proposals and that these decisions will also become largely incontestable, with no appeal mechanism. Independence from political interference is crucial as is a well funded appeals process. These are critical democratic fundamentals of any participatory democracy and I ask that you do everything in your power to ensure that we the people have a say and a well funded appeals process. Thank you for your commitment to democratic principles, yours sincerely Astrid Miller
