People Matter Survey 2016 Benchmark Report

August 2016

State Service Management Office
Department of Premier and Cabinet

Introduction

The People Matter Survey gathers information from your employees about how they experience work in your organisation.

This report outlines the 2016 People Matter Survey results for Department of Justice.

The report also provides whole-of-service responses for comparison.

How to use the information in this report

Please refer to the Working with your People Matter Survey Results guide.

Important information

- Due to survey improvements, such as the new 'neither agree nor disagree' response, some results cannot be compared to previous surveys.
- All percentages are of all respondents, unless stated otherwise.
- The percentage agreement calculation is now:
Agreement % = Respondents that agree or strongly agree # / All respondents #
The denominator now includes 'Don't know' responses which were previously excluded. This change provides truer agreement levels.
- All percentages have been rounded to whole numbers.
- Following feedback from last year's report, this year your organisation's results will only be compared to the State Service average (not other agencies).
- To protect anonymity, opinion question results for demographic groups such as gender, occupation etc. are not shown where there are fewer than 10 survey responses for the group.

Please contact people.matter@dpac.tas.gov.au for further information or to provide feedback.
