Subject: Form Submission - TPC Review
Date: Wednesday, 13 May 2020 8:24:37 PM

Name: Owen Wise

Your Submission to the TPC Review: There is no sound reason for weakening the current processes in place and none provided by those concerned. Governments are elected within a democratic process which has certain regulations with checks and balances in place ; upon winning Government these same principles must be followed and adhered to on the same basis

For Governments wishing to operate outside these necessary guidelines demonstrates their wish to represent the views of one tiny sector , therefore deliberately ignoring the thoughts and views of the many other Tasmanian's that participated in choosing it's Government ; there is an air of dictatorship and corruption by those that feel the need to bypass scrutiny by silencing the views of associated communities and society at large.

One only has to observe the bad behaviour of my very own Local Government authority, which over past recent years has gone from a responsible Council to the very exact opposite , by giving way to developers at any cost and at a rapid rate; they show no respect or consideration for the people that live there and that are following rules ,regulations and processes set within democracy .

The current process is in place to prevent the above from happening, so once again why the need and desire for change .

Please support all Tasmanian's that live here and contribute to providing the public purse and wish to see their State prosper as it always has along its short journey thus far.
