

Electricity Safety Bill – consultation draft submission

Submission instructions

Thank you for taking the time to review the Electricity Safety Bill and provide feedback.

To help with coordinating the review and tracking of responses, please following these instructions.

- 1 Please use the Submission Response Details sheet below to provide a response, including any suggested improvements.
- 2 Only document a response to a clause where you have a concern or issue, or a suggested enhancement.
- 3 Document the clause number (e.g 22), subclause (e.g. (2)) and paragraph e.g. (a) (as appropriate, e.g. for 22(2)(a)) in the column provided for each issue/suggestion you have.
- 4 If you are happy with a clause, there is no need to document anything.
- 5 Where no response is documented for a clause, it will be considered as an indication that you are happy with the clause as is.
- 6 Where you have an electricity safety issue or concern that is not covered in the Bill, please document it in the columns provided, without a clause, subclause and paragraph specification.
- 7 If you have no issues, concerns or suggested enhancements, please email John Britten (john.britten@justice.tas.gov.au) and acknowledge that is the case by 5 pm 28 February 2020.
