To Whom it May concern

AS a law abiding, peaceable, medical professional and long time resident of South Hobart, I would like to **express my deepest concern** at the anti protest laws proposed and re drafted by the Liberal Party.

Both myself and my family have attended protests in the past and at all times peacefully. We are neither extremists or terrorists but law abiding citizens who thought they lived in a democracy. I understand that this law was determined unconstitutional by the High Court so why are we even still considering it.

In a climate and biodiversity crisis it is essential that citizens have a right to peaceful protest, that we know can be a powerful driver for change.

I am appealing to the legislature to reject this bill outright.

your sincerely and concerned

Kim Miller
