

## Tasmania Prison Service and lock down periods from 1 July 2023 to 4 September 2023

The Tasmania Prison Service maintains record of prisoner's time out of cell for internal and national reporting requirements (Productivity Commissions *Report on Government Services* - <https://www.pc.gov.au/ongoing/report-on-government-services/2023/justice/corrective-services>).

The reporting framework for capturing this information is complex due to the differing operations of the six prison facilities, and the individual operations of units within each prison facility. In regards to the reporting of lockdowns, this information is captured either by prison (for smaller facilities i.e. reception prisons) or by units / areas within larger facilities. On any given day, a number of lockdowns may be required, across a single unit, part population of a unit, or for a facility. Lockdowns can vary greatly in length of time, for example a late unlock of a unit/area by minutes/hours, to a full morning/afternoon lockdown, or a full day lockdown.

The reporting of lockdowns is complex and may be misleading without providing clarifying information on the data. As an example, the Risdon Prison Complex is broken up into eleven reporting units/areas for the purposes of capturing time out of cell and lockdown information, and therefore if the facility is experiencing staff shortages, multiple lockdowns would be recorded. The level of staff shortage may impact whether all units/areas are locked down, whether they are all locked down at one time, or whether they are rotationally locked down across the day (for various periods of time).
