To whom it may concern,

With regard to the proposed Workplaces (Protection from Protesters) Amendment Bill 2019:

[REDACTED] you fascistic [REDACTED]. If you're going to completely erode the beauty of my home state, strip it for all of its greenery and wildlife, and desecrate the territory of Indigenous Australians, at least have the decency to do it in public view and look a protester in the eye. At this rate, returning to the shrivelled police state that you are instituting is becoming evermore detestable.

Regards,

Patrick Lennard.
