Submission on the review of the electoral act 2004

I wish to address the review to ensure that the Tasmanian political system becomes the state with the STRONGEST donation disclosure framework in Australia to ensure we have a healthy democracy that Tasmanians can be proud of.

The following issues need to be included in the changes to the Electoral Act

1. Real time disclosure to the Australian Electoral Commission of donations to political parties and candidates.
2. A cap on election expenditure for candidates
3. Banning donations from all corporate donors and foreign interests

regards
K Achilles
